79.83% | 2022

EXPERIENCE

While I may not have any experience, I am highly motivated, quick to learn, and gain new skills and technology.

PROJECTS

To-Do List (Duration February 2025 – February 2025)

- Developed a functional to-do list application using HTML, CSS, and JavaScript.
- Implemented features like task addition, removal, and updating with local storage for data persistence.
- A to-do list is a simple tool used to organize tasks or activities that need to be completed.

Weather Forecasting (Duration December 2024 – December 2024)

- Created a weather forecasting application that fetches real-time data using Open Weather API
- Get accurate weather forecasts and live temperature updates anytime, anywhere
- Weather forecasting is the process of predicting atmospheric conditions
- It can predict the Wind Speed, Visibility, Humidity and Specific Location and Time
